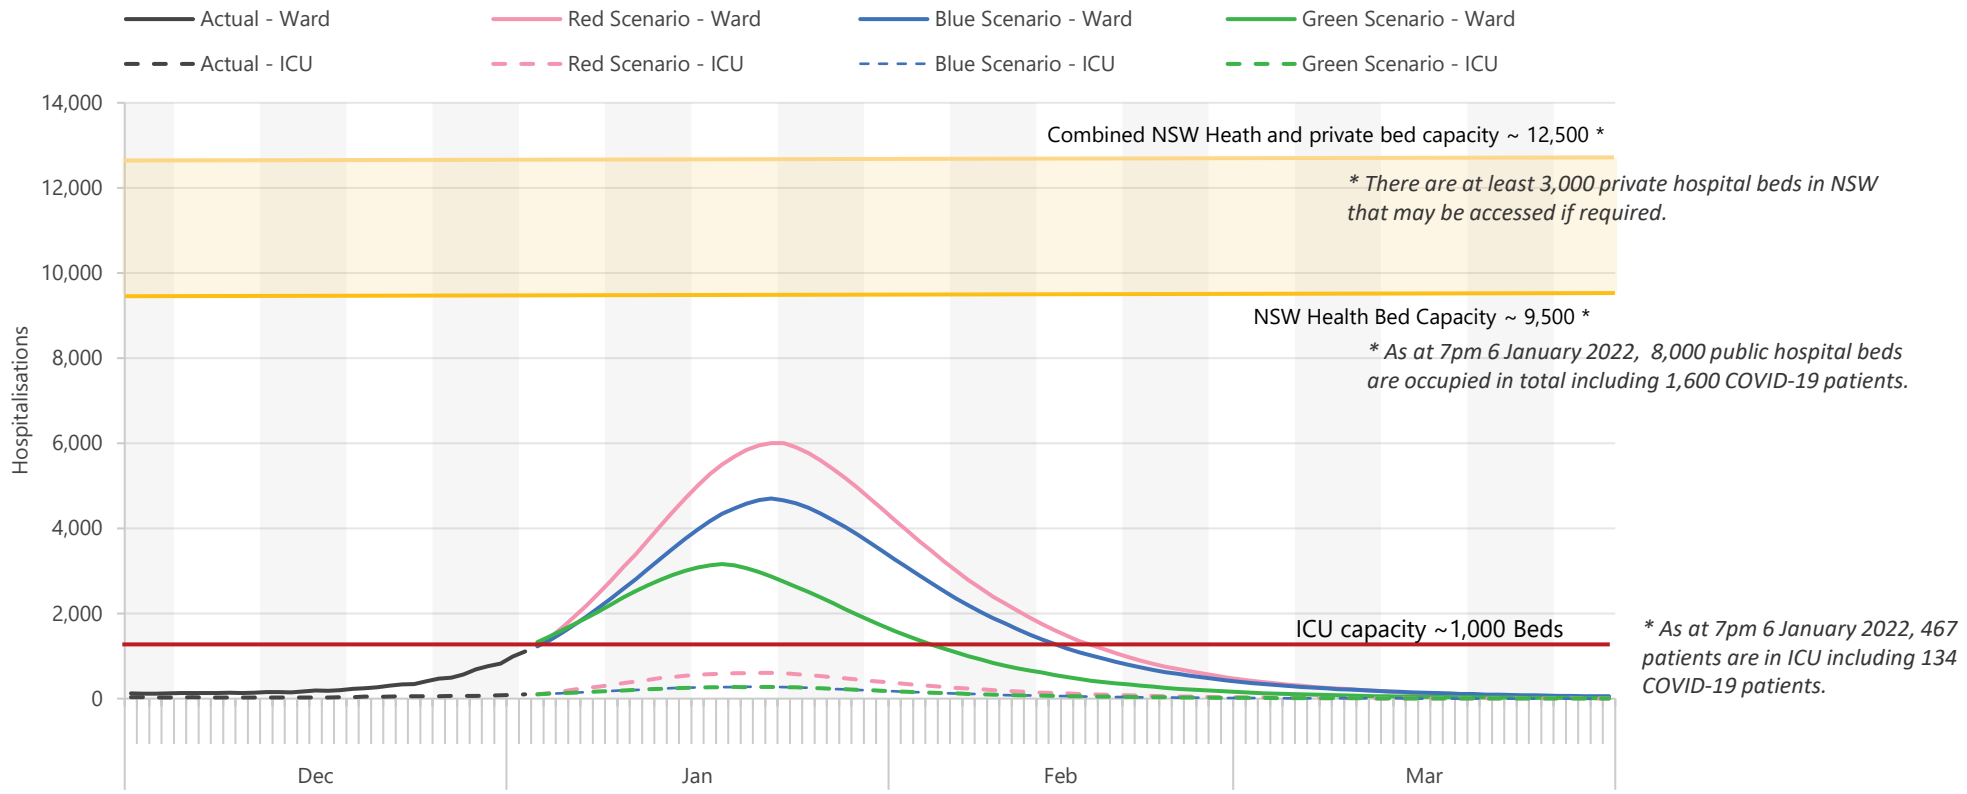
ICU demand and capacity modelling

Comparison of COVID-19 Ward and ICU Hospitalisation Prediction Scenarios



Scenario	COVID occupied ICU beds at peak	COVID occupied ward beds at peak
Red (consistent with what has been seen in New York)	**600**	**6,000**
Blue (NSW prediction with current parameters)	**273**	**4,700**
Green (consistent with what has been seen in London and Gauteng)	**270**	**3,158**
